
Shopbop EDI Profile

The following information describes the EDI Profile for Shopbop. Vendors should use the below details for compliance with the Shopbop EDI program.

Shopbop has partnered with Loren Data Corp. (ECGrid® network), a third-party EDI VAN Solution Provider and experienced leader in omni-channel integration, to implement this initiative. Shopbop will not be supporting direct connections (AS2, etc.) and your EDI VAN must have a peering interconnect with ECGrid.

Company Information:
