
buybuy Baby EDI Profile

The following information describes the EDI Profile for buybuy Baby. Vendors should use the below details for compliance with the buybuy Baby EDI program.

Buybuy Baby has partnered with NexComData on the ECGrid® network, a third-party EDI VAN Solution Provider and experienced leader in omni-channel integration, to implement this initiative. buybuy Baby will not be supporting direct connections (AS2, etc.) and your EDI VAN must have a peering interconnect with ECGrid.
