

CUSTOMER REVIEWS OF ECGRID

ECGrid is the easiest and most versatile EDI platform I have ever found. It is what EDI mailbox hosting should be. The Support Team and reliability of the system are both top of the line and quick.

Andy B.

ECGrid handled our VAN migration and it could not have been smoother. The level of customer support was something I had not yet seen in my 20 years of experience. Oh, and we are saving a lot of money!

David A.

I like ECGrid because it is easy to use. The GUI interface is clear and understandable. There is help available on the screen and it is easy to understand. I also like that their support is very responsive. They fixed the issue and then explained how I can fix it next time my self; thus, helping me to work independently.

Nancy G.

ECGrid's Support Team is superb. Quick response times and excellent service. A very knowledgeable team and quick to help out. Portal and API are both extremely easy to use and maintain our own customer base.
